

Important... PHOTO SHOOT DETAILS

What you can expect at your shoot...

Your shoot will take place at Images and Powers. Please arrive on time, allow for traffic, allow enough time to park, and regroup! If you are more than 15 minutes tardy, the photographer has the option to reschedule your shoot.

Please do not bring a lot of people with you to the shoot. If we are going to take pictures of a child three and under, having both parents is enough. If older than three, one parent is enough. There is not a lot of room in the photo studio and it can be distracting to the model or actor to have several people watching them.

Your shoot time is scheduled for

_____ (day), ___/___/10, at ___:___ am/pm.

We handle all of your professional photography needs... your photography session at our studio, studio time, editing, touch-ups, database uploading fees, and courier fees for 2 years. This also includes being part of our exclusive database for bookings. It is your responsibility to contact your agent _____, (314) 993-3097 ext. _____ to set your "updated" photo shoot date. (You are eligible to re-shoot your "updated" photos on your first anniversary at no additional expense.) If you "NO SHOW" at the scheduled update shoot you will forfeit your update. You must call to cancel your update, if you are not coming.

Allow at least 30 to 45 minutes to complete the review of the Agency orientation video and your photo shoot. If ill, etc., and you need to reschedule, call the Agency only at (314) 372-0500. When you arrive at Images and Powers, please check in at the reception desk. Have a seat and watch the orientation video. If you are called to shoot in the middle of the orientation video, please return to the TV and finish the orientation video. This video is mandatory, and covers important Agency rules and guidelines. When you have completed the orientation video, your shoot, reviewing pictures and choosing featured photo you may leave.

VERY IMPORTANT.... What to wear...

You will shoot in **one outfit only**, from your bust to top of your head. We would prefer you to wear a **solid colored shirt with no writing or graphics. Bright colors work best (blue, green, hot pink, orange, red). Avoid pastels, black, white, navy, hunter green, or maroon.** Any season of clothing is fine. **No tank tops or low-cut shirts and do not wear anything strapless or sleeveless.** For babies bring an extra shirt in case they dribble. Your makeup and hair are your responsibility. No shiny or glittery makeup. **No big bows/hats/etc. in hair.** Jewelry should be minimal. **Ladies wear one pair of small sized earrings only!** Men who have pierced ears should remove their earrings.

Approximately 15 digital color pictures will be taken at this shoot. You will pick out one photo with the photographer that will be featured as your head-shot. At your shoot you will get a disc of the "proofs" (not edited) taken of you. You will also get a release from our photographer so you will be able to reproduce the proofs for your personal use. You will receive your **edited** talent head-shot on an edited disc at your home address within 30 days.
