

**Presents:**

**Saturday, June 1. 2019**

**Karla Huff**

Dream Talent Management, formed in 2005, is one of the leading management companies representing young talent in the industry today. Its co-owners, Karla Huff and Emelie Jimmo, bring to the table over 25 years of experience both as parents of entertainers and successful managers whose passion is guiding, directing and developing artists big with Dreams! Since our inception we have had a focus not only on young actors, dancers and singers, but as we have grown we now include adults all following their passions! With three separate offices in the Southern California area we represent all levels of talent from the beginner to the seasoned professional. Our rosters are impressive, our talented Dreamers even more so. We love sharing our experience, knowledge, and guidance with our managers and clients under the Dream Talent banner!

It is our goal to work together with you or your talented children in the areas of television, film, dance, commercials and music advising, counseling, and developing, and eventually working daily to help you navigate this wonderful world of Dreams!

Karla Huff is a member of the Television Academy and sits on the Advisory Committee of the Looking Ahead Program through SAG/AFTRA and the Actors Fund to help ensure there is support and recognition for young talent!
